PART I.

SUMMARY OF THE ADMINISTRATION.

PART I.

GENERAL SUMMARY.

SECTION I.—GENERAL AND POLITICAL.

Col. Sir Hugh Daly, K.C.I.E., C.S.I., held the office of Chief Commissioner ^{General} throughout the year. He paid two visits to Coorg—in November 1914 and February 1915.

His Excellency Lord Pentland, Governor of Madras, paid a short informal visit to Mercara from the 10th to 12th November 1914, motoring up the Sampaji Ghât from Mangalore and proceeding to Mysore through Fraserpet. He received a small informal deputation and went over the Haleri coffee-estate and the Rajahs' Tombs at Mercara. He is the first Governor of Madras to have visited Coorg since the time of the Duke of Buckingham.

2. Mr. R. H. Ellis, I.C.S., officiated as Commissioner from April 16th to September 17th during the absence on combined leave of Mr. F. Hannington, I.C.S., who was in charge for the remainder of the year.

SECTION II.—ADMINISTRATION OF THE LAND.

3. The rice crop was good throughout and bumper in many places. Prices, which ruled high in November and December, fell rapidly in January and the ryots failed to get the prices which were at first anticipated.

Realisation of
the revenue and
agricultural
advances.
[Part II,
pages 1-3.]

The coffee crop was fair and, though forward sales were impossible to negotiate, the prices eventually realised were good. Cherry coffee found the coast market over-stocked and prices were weak throughout.

Land revenue demand was Rs. 3,65,233 against Rs. 3,64,845 in the previous year. Collections were not as good as in the previous year. Excluding Rs. 61,508 due by European planters, there was a balance of Rs. 13,522 on 31st March 1915.

(Re-settlement),
[Part II,
page 3]

SECTION III.—PROTECTION.

Police.
[Part II,
page 4.]

4. The number of cognizable cases increased by three to 576 which is the highest figure yet recorded. The number of murder cases still continued high and thirteen cases were recorded of which two were reported as undetected. The three cases of culpable homicide all ended in convictions. The number of cases of preferring a false charge was remarkably high.

The Yeravars gave no particular trouble during the year. The settlements of Wodders in South Coorg appear to act in unison with the Bestas who gave some trouble in the cold weather. All these gangs require careful watching.

Criminal Justice.
[Part II,
pages 5-6.]

5. The number of cases brought to trial remained almost stationary. The number of cases filed under the Breach of Contract Act increased from 1,657 to 1,729 and the increase of late years seems to indicate that all is not well with the labour market.

Prisons.
[Part II,
pages 6-8.]

6. The convict population increased considerably and numbered 65 on 31st December 1914 as compared with only 38 on 31st December 1913 when the jail population was the lowest on record.

Owing to a serious outbreak of dysentery in September and October the rate of sickness *per mille* rose from 19 to 65.51 and there were thirteen deaths during the year. Some of the prisoners were transferred to Coimbatore and Cannanore and the general health of the remainder has since improved.

The plans and estimates for the new jail have been sanctioned and it is hoped that the present jail will shortly be vacated.

Civil Justice.
[Part II,
pages 8-9.]

7. It is satisfactory to note that the number of suits instituted decreased by 118 while the average value rose to Rs. 107. The number of witnesses attending courts dropped by 346.

Registration.
[Part II,
page 9.]

8. While the number of documents registered decreased, the fees increased and realised the handsome surplus of Rs. 2,978—more than twice the annual average for the last ten years.

District Board.
[Part II,
pages 9-10.]

9. Including portion of an Imperial grant the total outlay on education was Rs. 25,745 representing a percentage of 30.63 of the total income.

One new school was opened during the year.

The new in-patient ward at Gonikoppal has proved a success and it is hoped to start a similar ward at Sidapur, thanks to the public spirit of a local Indian planter. The recurring expenditure on dispensaries has increased by over Rs. 3,000 in the last two years.

SECTION IV.—PRODUCTION AND DISTRIBUTION.

Weather and crops.
[Part II,
pages 12-14.]

10. The total rainfall at Mercara amounted to 129.82 inches or 4.57 inches, above the average for the previous fifteen years. The south-west monsoon was continuous and fairly copious. It was succeeded by a curiously damp cold weather with rain at intervals throughout the dry season which had an adverse effect on the coffee crop.

The area of wet holdings increased by 153 acres.

The new tea garden opened out near Hudikeri by the Glen Lorna Tea Company is coming on well, but the situation and altitude appear to demand the raising of artificial shade to protect the young bushes. Para rubber at Makut and Sampaji continued to show a most promising rate of growth, but tapping has not yet started. Great success has been obtained at the Sidapur Experimental Farm in the growth of oranges, potatoes, maize and mulberries.

11. The area of only 208 acres affected by fires is quite the lowest on record and only one fire—on the slopes of Tadiandamol—was of any importance. Forests.
[Part II,
pages 14-16.]

Owing to heavy showers in January, protective firing on the Western Ghâts had to be restricted to the Brahmagiris.

The necessary preliminaries to the exploitation of the ghât forests are still in progress and the new Special Working Plans Officer joined duty in October. Fair progress is reported in the development of communications in this difficult tract. The heavy decrease in forest revenue is purely temporary, but the difficulties of transport render any large increase in normal years almost impossible.

Congestion of sandalwood at the depôts was unavoidable. The opportunity should now be taken for a general enumeration of sandalwood and a careful investigation of the areas affected by spike-disease.

The experimental sowing of 'Padauk' at Makut with seed obtained from the Andamans showed a very promising rate of growth.

12. As in the previous year, the new Pollibetta-Sidapur road and the Sidapur-Fraserpet road claimed special attention. The new girder bridge over the Chikleholé on the latter road and culvert and bridge-work on the former were commenced. The Pollibetta-Gonikoppal road was widened and one mile of the Gonikoppal-Wynaad road was metalled. Public works.
[Part II,
pages 16-17.]

The work was commenced on the new bungalow for the District Magistrate and on the High School hostels while the new dormitory for the Mercara Girls' School was nearly completed at the close of the year.

13. In Mercara the various sanitary improvements started in the previous year with the aid of the special grant were completed. The draining of the Gowli swamp has had the desired effect and may be pronounced a complete success. Further drainage on the same lines is dependent on the receipt of special grants from the Government of India. Municipal.
[Part II,
pages 11-12.]

SECTION V.—REVENUE AND FINANCE.

14. The net financial results of the year's transactions showed a deficit of Rs. 4,008, the receipts under land revenue remaining practically stationary while those under Forests declined by Rs. 70,056. Gross revenue.
[Part II,
page 18.]

Excise.
[Part II,
pages 18-19.]

15. The slight decrease in Excise receipts is entirely due to the fall in the consumption of arrack, which may be due to the higher prices ruling for other commodities. All other branches of excise revenue show slight increases.

There are only 75 toddy shops now in Coorg compared with 126 five years ago.

The number of excise offences dropped from 72 to 59.

Stamps.
[Part II,
page 20.]
Local Funds.
[Part II,
pages 20-21.]

16. There was a slight falling off in the receipts from the sale of stamps.

17. The finances of the various local funds remained in a satisfactory condition.

SECTION VI.—VITAL STATISTICS AND MEDICAL SERVICES.

Births and deaths.
[Part II,
pages 21-22.]

18. The death-rate rose from 33.48 to 34.05 *per mille*. The year was decidedly unhealthy, though there was only one small outbreak of plague at Suntikoppa and a single imported case at Fraserpet. The death-rate among Coorgs rose to the high total of 42.06 *per mille*.

Sanitation.
[Part II,
pages 23.]

19. The second Sanitary Inspector having resigned, it was decided to keep the appointment in abeyance.

The Sanitary Inspectors carried out a thorough disinfection of Suntikoppa during the outbreak of plague and supervised the cleansing of insanitary *pettus* besides assisting the permanent staff in the two Municipalities.

SECTION VII.—INSTRUCTION.

Education.
[Part II,
pages 24-25.]

20. The Inspector was able to pay four visits to Coorg during the year. His inspection of the Lower Secondary School, Virajpet, showed that several reforms are urgently needed and the school is, on the whole, the least satisfactory one in the province.

The Mercara High School has been brought to a most satisfactory state of efficiency and the school average in English was no less than twelve per cent. above the Presidency average. Mr. Steele is to be congratulated on these results.

At Mercara the purchase of a hostel for non-Coorgs was completed and the construction of one of the new hostels for Coorg boys was started during the year.

Quinine prophylaxis among the boys of the two secondary schools yielded excellent results: in Mercara the fever-rate declined in spite of a great epidemic of malaria in the town itself.

The Lower Secondary Girls' School at Mercara had no fewer than 44 boarders on its rolls. The new dormitory was nearing completion at the close of the year. Arrangements were also made to extend the municipal water-supply to this school.

SECTION IX.—MISCELLANEOUS.

21. The Co-operative credit societies continued to do good work and fair progress was made in cattle insurance in spite of very heavy cattle mortality in North Coorg. Co-operative credit societies.

The success of the new grain bank at Kokeri seems to show that the scheme is capable of development.

22. As was anticipated last year, it has been found that regrowths have to a great extent overtaken original clearance work, much of which has now to be done over again. No doubt much of the original clearance carried out five or six years ago was carelessly done and it is probable that, even with the help of the new Regulation, it will not be possible to do more than prevent the further spread of the weed. Lantana.

23. The year was fortunately unmarked by any serious visitation of insect pests. Agricultural Supervisor B. Machayya was placed on special duty for six months from 1st April 1914 to investigate the ravages of "green bug" in Native coffee estates. Agricultural pests.

He advised owners as to the best means of fighting the pest but found many of them very apathetic. Luckily the heavy monsoon brought on a good growth of the fungus which is the surest enemy of the green bug in the damp climate of Coorg. Mr. Bainbrigge Fletcher, Imperial Entomologist, visited Coorg in April and May 1914 and made several interesting discoveries. It appears that ants are the chief means of spreading the pest and planters who have systematically destroyed the ants' nests on their estates report excellent results.

Towards the close of the year the "borer beetle" began to appear in abnormal profusion on many estates. As practically nothing is known of its life-history, it will probably be found necessary to obtain expert advice in order to deal with it more effectively.

DEPARTMENTAL CHAPTERS.

I.—PHYSICAL AND POLITICAL GEOGRAPHY.

1. The standing information which should be incorporated in this Chapter is printed in the administration report for the year 1911-1912 under the following headings :—

Standing information and geographical statistics.

	PAGE.
Physical features of the country	1
Area	3
Climate	3
Chief staples	3
Historical summary	4
Form of administration	5
Character of land tenures	7
System of survey and settlements	8
Civil divisions of the British territory	10
Details of the last census	10
Tribes and languages	11

Other statistical information will be found in the Coorg District Gazetteer, Volume B. Statements Nos. 1 to 5 exhibit the prescribed statistics regarding the area, character of the surface, climate, civil divisions and population of the province.

2. There were no changes in the form of administration during the year under report.

Changes in the administration.

3. Mysore is the only foreign State adjoining Coorg and the relations therewith were satisfactory.

Relations with Native States.

4. The public health during the year was fair. The number of deaths registered was lower by 1.28 per cent. than the average for the previous five years though there were outbreaks of plague at Suntikoppa and of small-pox in parts which accounted for 124 deaths. The rice crop was good, while the coffee crop was fair. The prices of the principal food-grains ruled high. Though there was no outbreak of rinderpest in the province, the cattle mortality was heavy. The statistics of litigation and registration point to a general prosperity. There was a material increase in the rate of hire payable for labour.

Condition of the people.

II.—ADMINISTRATION OF THE LAND. (1914-1915.)

5. Statement No. 6—*Land revenue*.—The demand for the year was Rs. 3,65,233 as compared with Rs. 3,64,845 for 1913-1914 giving a net increase of Rs. 388. The variations were an increase of Rs. 1,495 under land and coffee assessment, due partly to expansion of coffee cultivation and partly to levy of full assessment on lands held at concessional rates in previous years, and a diminution of Rs. 1,107 under miscellaneous or fluctuating land revenue owing to smaller receipts on account of Government waste lands sold for cultivation. Including an outstanding balance of Rs. 70,451 at the beginning of the year, the

Realisation of the revenue.

gross demand amounted to Rs. 4,35,684. Of this sum, Rs. 3,60,334 were collected and Rs. 320 remitted leaving a balance of Rs. 75,030 at its close. This amount, however, included Rs. 61,508 due from coffee planters who are allowed to defer payment until 31st May. The actual balance was therefore Rs. 13,522.

6. Statement No. 7—*Assignments of land revenue*.—The total value of assignments was Rs. 1,09,894 or an advance of Rs. 392 when compared with that of previous year, due chiefly to concessions granted to the patels of enlarged villages in certain hoblis of Nanjarajpatna Taluk by reduction of a portion of land revenue on the lands held by them, while allowing dispossessed patels to retain their *goudumbli* allowances during their life time.

7. The acreage held under the principal tenures is shown in the following table, which includes the corresponding figures for the previous year :—

Years.	Sagu.		Jama.		Jeda.		Umbli.		Jagar.	
	Wet.	Dry.	Wet.	Dry.	Wet.	Dry.	Wet.	Dry.	Wet.	Dry.
1913-1914 ...	45,275	19,904	40,490	195	3,679	862	7,671	34	3,752	883
1914-1915 ...	45,454	19,489	40,456	195	3,676	862	7,682	34	3,752	883

Continued.

Years.	Coffee.	Orange.	Arecanut.	Cardamom.	Rubber.	Agave.	Peppon.	Tea.	Total.
1913-1914 ...	91,820	2,906	237	59,182	2,745	280	1,138	..	284,173
1914-1915 ...	93,907	4,271	237	69,427	3,367	269	1,069	1,040	296,070

The increases under cardamom, rubber and tea are due to fresh grants, while that under orange is attributable to expansion of cultivation. The decreases under *sagu* dry and coffee are accounted for by the relinquishment of unremunerative areas.

8. Statement No. 8—*Incidence of land revenue on area and population*.—This is a quinquennial return and was last prepared in 1912-1913 (vide paragraph 8 of the report for that year).

9. Statement No. 9—*Transfers of landed property*.—Of the 42 transfers of unprivileged lands, 32 cases refer to sales by revenue courts for the recovery of arrears of assessment, etc., and the remaining 10 to sales by order of civil courts. In 19 cases under the former head the lands were resumed to Government for want of bidders. The number of privileged holdings brought to sale for arrears of revenue and for non-payment of loans obtained from Co-operative Credit Societies was 10. On their transfer to auction purchasers or resumption to Government the privileged tenure became extinct.

10. Statements Nos. 10, 11 and 12—*Transactions under the Land Improvement and Agriculturists' Loans Acts*.—The total amount advanced to cultivators during the year under both acts, which aggregated Rs. 23,840 decreased by Rs. 1,045 when compared with that of previous year. This, together with the outstanding balance (Rs. 47,650) at the commencement of the period under review, brought the gross amount for recovery to Rs. 71,490. The realisations aggregated Rs. 19,032 leaving a balance of Rs. 52,458 made up of (a) Rs. 961 which became due but was not realised before the close of the year and (b) Rs. 51,497 not payable during the year. The whole of the arrear balance, except Rs. 324, the collection of which has been suspended, has

since been realised. Lands had to be attached in three cases and sold for arrears amounting to Rs. 277-1-5. The net result from these loan operations was an income of Rs. 2,215 as compared with Rs. 1,642 in 1913-1914 and Rs. 1,746 in 1912-1913.

11. The sum advanced under the Land Improvement Loans Act, 1883, was Rs. 10,350 distributed among 103 ryots in sums ranging from Rs. 20 to Rs. 300. The amount falling due for recovery during the year (including arrears) was Rs. 8,458 and the percentage of collection was 95·27 against 95·21 in the previous year.

12. The advances under the Agriculturists' Loans Act, 1884, amounted to Rs. 13,490. The number of ryots benefited was 313 and the sums distributed ranged from Rs. 20 to Rs. 200. The percentage of realisations was 95·13 as compared with 97·47 in 1913-1914.

13. Statement No. 13—*Survey and Settlement*.— The Department of Land Records and Agriculture continued to be under the executive charge of Mr. Gustav Haller. Surveys, settle-
ments and land
records.

14. The progress made by the Land Record Department was satisfactory. The maps and records were kept up to date and 64 village maps were republished. Sixteen land disputes were disposed of by the Deputy Director and 44 crop experiments were conducted by the Land Record Department.

15. A survey school was held at Fraserpet during the monsoon and ten officials who attended it were declared to have qualified in surveying.

16. The area of land sold under the Waste Land Rules during the year was 213·31 acres. Excluding timber growth, the value realised was Rs. 7,509 giving an average per acre of Rs. 35-4-0, compared with an average of Rs. 17-4-0 in the preceding year. The increase in the average value was due to keen competition in certain cases. Waste lands.

17. The number of minors under the official guardian rose from four to eleven during the year under report. Proper arrangements have been made for the management of their landed properties and for the recovery of the debts due to them. Wards' estates.

18. There are no *zamindaris* in Coorg and the great bulk of the holdings are *ryotwari*, the ordinary tenure being known as *sagu*, though there are one or two separate villages held as *jagirs*. Particulars have been given in paragraph 7 *supra* of the holdings under the various classes of tenure, a separate description of which will be found in paragraphs 23—30 in the administration report for the year 1911-1912. Owing to the fact that individual ryots frequently hold land under more than one tenure it is impracticable to compile statistics of the several rent-paying classes. Reference has been made in paragraphs 6 and 8 *supra* to the revenue foregone in respect of the several privileged tenures and to the incidence of the land revenue demand on the population, while information as to the average assessment is furnished in Statement No. 82. Revenue and
rent-paying
classes.

III.—PROTECTION.

Standing
information.

19. The standing information which should be incorporated in this Chapter is printed at page 14 of the administration report for the year 1911-1912 under the heading "Legislating Authority".

Course of
legislation.
(1914-1915.)

20. Statement No. 14—*Acts of the Governor General in Council affecting Coorg*.—The Police Act, V of 1861, and the Foreigners' Act, III of 1864, were extended to Coorg during the year under the Scheduled Districts Act and the Excise Regulation, I of 1915, was promulgated under Statute 33, Victoria, C. 3.

Police.
(1914.)

21. Statements Nos. 15 and 16—*Cognizable crime*.—The number (576) of cognizable offences reported was 3 more than in the previous year. There was a fall under breaches of special and local laws, but there was a rise under minor offences against property. There was a slight decrease under serious offences against person and property.

22. The percentage of convictions obtained in cognizable cases investigated by the police was 76·88 against 85·18 in the previous year. Of 590 persons arrested by the police, 440 were convicted, the figures for 1913 being 661 and 433 respectively.

23. Thirteen cases of murder were dealt with during the year. Six ended in conviction, two were referred as mistake of fact, two were undetected and the remaining cases were pending.

24. Three cases of culpable homicide were reported during the year. Convictions were obtained in all of them.

25. Twenty cases for preferring false charges were dealt with during the year. In ten cases convictions were obtained, in five the accused were discharged, one was dismissed and four were pending.

26. Statement No. 19—*Property stolen and recovered*.—The recovery of property was better than in the previous year, the percentage being 55·50 as against 46·38.

27. Statement No. 20—*Sanctioned strength and cost*.—The total expenditure was Rs. 58,172 against Rs. 59,591 in the previous year.

28. Statement No. 21—*Equipment, discipline, and internal management*.—The actual strength of the police was 232 against 239 in the previous year. All the stations were in charge of sub-inspectors. One policeman was punished judicially and 108 were dealt with departmentally as against 98 in the previous year. One man was dismissed during the year. The conduct of the police force on the whole was satisfactory. The number of men who are literate in Canarese was 227 against 238 in 1913. The training school at Mercara was open throughout the year for the instruction of recruits and eighteen men passed through it. The number of Coorgs in the department was 131 against 138 in the previous year.

29. The number of processes issued during the year was 12,266 against 10,490 in 1913; Of this number 54 were pending execution at the close of the year.

30. Five suicides were reported as compared with 12 in the previous year and the number of accidental deaths rose from 30 to 38.

31. Mr. C. A. Lidbury went on leave and Mr. G. V. Stanbury was in charge of the department from 10th August 1914.

32. Statement No. 23—*Number of criminal courts and trials conducted.*—Mr. R. H. Ellis, I.C.S., held the post of District Magistrate but during the absence of this officer as Officiating Commissioner from 16th April to 17th September 1914, Mr. E. Graham, I.C.S., officiated as District Magistrate. There were no permanent changes in the personnel of the subordinate magistracy.

Criminal
Justice.
(1914)

33. Statement No. 24—*Particulars regarding the trial of offences.*—The number of cases brought to trial (2,948) was 16 less than in the previous year, while the number of offences reported (3,124) decreased by 19. Under the Workman's Breach of Contract Act, 1,729 cases involving 1,729 persons were instituted as compared with 1,657 cases in 1913. Of these, and of the cases pending from last year (146), 1,605 cases were brought to trial, leaving 239 cases pending at the close of the year. Excluding cases of this class the criminal trials during the year resulted in the discharge or acquittal of 1,214 persons and the conviction of 825. The percentage of convictions was 40·46 compared with 41·65 and 38·95 in the two previous years. Excluding petty cases of hurt, assault, mischief and insult, most of which are only technically criminal, the percentage of persons convicted comes to 60·71 against 67·54 in the previous year. Offences against public tranquillity and justice numbered 59, those against the person 330, and those against property 287, while there were 160 other offences under the Indian Penal Code, and 2,112 breaches of special and local laws. Petty cases under the Police Act showed a decrease (240 as against 308), and also cases under the Arms Act (36 as against 135), Excise Act (61 as against 82), and municipal by-laws (34 as against 59). The number of offences against property was 287 against 229 in the previous year. Fifty persons were found guilty of offences classed as heinous crime. Of these, eight were convicted of murder and dacoity with murder, one being hanged and the other seven transported for life.

There were no cases of opium smuggling during the year, nor were any proceedings taken under the Indian Press Act.

34. Statement No. 26—*General result of criminal trials.*—The average duration of each case was 9 days in the District Magistrate's court and 11 days in the subordinate courts.

35. Statements Nos. 27 to 31—*Punishments inflicted by various courts.*—Two persons were sentenced to capital punishment and six to transportation for life by the Sessions Judge but the death sentence in one case was commuted to one of transportation for life by the Judicial Commissioner. Whipping was awarded in only one case. As stated in previous years' reports the decrease in this form of punishment is chiefly due to the withdrawal of whipping powers from the second class magistrates. The amount of fines imposed and of compensations paid was Rs. 6,707 and Rs. 1,533 respectively as compared with Rs. 7,494 and Rs. 164 in the previous year. The percentage of realisations was 97. The increase in compensation awarded was due to a sum of Rs. 1,000 awarded to the Forest Department in a case under the Forest Act involving serious damage to Reserve Forests.

36. Statement No. 32—*General result of the trial of European British subjects.*—One European British subject was brought to trial for an offence under sections 323 and 352 of the Indian Penal Code and was convicted. Two distinct charges for offences under section 409 of the Indian Penal Code were brought against another European British subject but the cases were transferred to the High Court, Madras, for trial.

37. Statement No. 33—*Result of appeal and revision.*—The Judicial Commissioner received twenty appeals against convictions. In two cases the sentences were reversed and in another reduced. Twenty-five cases were dealt with by the Sessions Judge. Sentences in two cases were reversed and in another reduced. Twenty-eight appeals were preferred before the District Magistrate.

In six cases the sentences were reversed, in five reduced and in two a new trial was ordered. In two cases in which five persons were involved, sentence was reversed in respect of one, reduced in respect of another, and confirmed in respect of the other three. The Assistant Commissioner and Sub-Divisional Magistrate disposed of 21 appeals. In three cases the sentences were reduced and in one reversed the order of the lower court. There were in all 28 applications for revision as compared with 30 in the previous year. Of these, ten were preferred to the Judicial Commissioner who, in four cases, upheld the orders passed, reduced the sentence in one and reversed the finding in another.

38. Statement No. 34—*Juries and assessors*.—Trials before the Sessions Court were conducted with the assistance of assessors.

39. The records and registers of all subordinate courts were inspected by the District Magistrate during the year.

Prisons.
(1914.)

40. Statements Nos. 35 to 62—*Detailed statistical information regarding the administration of the jail department during the year 1914*.—The particulars for the Mercara District Jail and the four lock-ups attached to the taluk offices at Somwarpet, Napoklu, Virajendrapet and Ponnampet, are given separately.

41. The bulk of the jail population is confined in the District Jail and the lock-ups are used only for under-trial prisoners, persons sentenced to periods of imprisonment not exceeding fifteen days, and convicts temporarily detained pending transfer to the District Jail. It is proposed to convert these lock-ups into sub-jails at an early date.

Lock-ups.

42. The total number of admissions to lock-ups during the year under report was 535 or 187 more than in the previous year. The number of convicts included in this total rose from 57 to 109, and 85 of these were for transfer to the District Jail. Twenty four convicts were confined in the lock-ups as against eleven in the previous year. The maximum period of detention in the case of under-trial prisoners was 59 days, the average being 9.63 days. The expenditure on dieting charges per annum per head of average strength rose from Rs. 59 to Rs. 89. The ordinary allowance per man is one seer of rice and five pies' worth of curry stuff.

District Jail.

43. The accommodation available was the same as in 1913. The wards provide for the custody of 151 prisoners of all classes. The largest number in custody on any one day was 112. In the male under-trial ward there was slight overcrowding which was relieved by making use of other wards.

44. Statements Nos. 36 to 43—*Number and disposal of jail population, classification according to religion, age, offences, etc.*—The daily average strength including under-trials and civil prisoners was 80.44 against 58.41 during the previous year. Of the total jail population (480), 249 were convicted prisoners, 214 under-trials and 17 civil debtors. The figures for 1913 were 189, 145 and 17 respectively while those for 1912 were 190, 169 and 11.

45. Thirty-eight convicts were in custody on the 31st December 1913 and 211 were admitted during the year. Of these, 145 were released on the expiry of sentence, eight on appeal, nine under remission rules, two were transferred, six were transported to the Andamans, one was executed, one was released on medical grounds and twelve died. There were 65 convicts in confinement on the 31st December 1914.

46. Of the under-trials, 66 were subsequently convicted, 105 were released, 33 were transferred to other jails, one died and 9 remained at the close of the year.

47. Statements Nos. 44 to 49—*Particulars regarding jail discipline.*—The number of offences committed by convicts rose from 14 to 25. Five offences related to work, eleven to receiving and possessing forbidden articles, eight to assault and one to other breach of jail discipline. One civil debtor had also to be punished for giving three pies to a convict for buying snuff. The convict who escaped in 1902 and the two convicts who escaped in 1905 have not been re-arrested. Corporal punishment was inflicted in one case during the year on a dacoit for attempting to escape from the jail. Of the total number of jail offences 51·91 per cent. were committed by habitual offenders whose proportion to the entire jail population was 16·06 per cent. Prisoners of the habitual class were kept, as usual, in cubicles at night, and in separate gangs at meal time, and were not appointed to the post of maistry. Nine convicts were released under the remission rules during the year, the maximum remission earned being 195 days by a convict under sentence of imprisonment of five years. Ten were awarded special remission for having committed no prison offences whatever during the year, two for excellence in work and 30 for economy in the wearing of clothing.

48. Statements Nos. 50 to 53—*Scales of diet.*—Diet was, as usual, supplied departmentally in accordance with the authorized scale and the result was satisfactory. The quality of food was good and the quantity sufficient to keep the prisoners in good health. The daily cost per head was two annas and nine pies or four pies less than in the previous year. The decrease was due to a larger population having been dieted during the year, although the food-grains were dearer. The gross outlay on the articles of food was Rs. 4,983 against Rs. 3,965 in the preceding year. Though the jail population was considerably greater than in the previous year, due to larger quantity of food-grains having been purchased during the year, however, there remained at the close of the year provisions to the value of Rs. 570 out of the stock purchased during the year under report.

49. A sum of Rs. 234 was spent in purchasing clothing for the prisoners.

50. Statements Nos. 54 to 56—*Detailed statistics of health.*—Water is supplied from the Mercara reservoir. Conservancy and drainage arrangements were adequate and satisfactory. During the latter part of the year under report owing to the outbreak of Jail dysentery an iron incinerator was obtained in which the night soil of the dysentery cases is burnt. The health of the prisoners was poor, especially during the latter half of the year. There was an increase in the number of cases of dysentery and malaria and the rate of sickness per mille rose in consequence from 19·00 to 65·51. There were thirteen deaths during the year, twelve occurred among the convicted prisoners and one among the under-trial prisoners, one was due to lobar pneumonia, one from chronic diarrhoea, two from enteritis, six from dysentery, one from ankylostomiasis and one from hepatitis and that of the under-trial from pneumonia with enteritis.

51. Statement No. 57—*Gain and loss in weight of the prisoners.*—Of the 184 convicts discharged from jail, 89 had gained in weight while 54 had lost, the variations in the case of 40 of the latter being under 10 lbs. One convict was released on medical grounds.

52. Statement No. 58—*Expenditure on guarding and maintaining prisoners.*—The gross expenditure was Rs. 13,176 against Rs. 11,169 in the previous year. The increase in expenditure was due to compensation allowance for dearness of provision having had to be paid to the warder establishment, to increase in dieting, to rise in price of food-grains, to the purchase of larger quantity of provisions, to sanitary charges and to the biennial supply of clothing to warders,

53. Statement No. 60—*Employment of convicts*.—The work of the prisoners was, as usual, carefully arranged with reference to class, sex and health. The in-door labour consisted chiefly of grinding ragi, and laundry work. During the early part of the year convicts who had become proficient carpenters were released; hence very little carpentry work was done during the year.

54. Statement No. 61—*Net cash earnings of convicts*.—The total receipts from jail manufactures was Rs. 2,796 against Rs. 2,452 in the previous year. During the year the convict population was much higher than in the previous year which considerably increased the receipts under jail manufactures and convict labour hired to the Public Works Department. The expenditure on materials amounted to Rs. 1,092 against Rs. 796 and the net profit to Government was thus Rs. 1,703 as compared with Rs. 1,656 in the previous year. Taking this profit into consideration, the net expenditure was Rs. 11,473 against Rs. 9,513 in 1913, but owing to the larger number of convicts the average cost per prisoner fell from Rs. 162 to Rs. 142.

55. The jail was visited by the Honourable the Chief Commissioner of Coorg who is also the Inspector-General of Prisons, the Surgeon-General with the Government of Madras and other official visitors from time to time. Lieut.-Colonel J. L. Macrae, I.M.S., was in charge of the Jail throughout the year.

Civil Justice.
(1914)

56. There was no change in the number of Civil Courts (five) or their jurisdiction.

57. Statement No. 63—*Number and description of suits instituted*.—The number of suits filed (2,564) was less than that of the previous year by 118.

58. Statement No. 64—*Number and value of suits instituted*.—The total value of suits was Rs. 2,73,276 or 10·61 per cent. more than in the previous year and the average value (Rs. 107) was fifteen rupees higher.

59. Statement No. 65—*General result of the trial of original cases*.—The number of cases decided was 2,501 as against 2,735 in 1913 and the arrears rose from 306 in the previous year to 366 in the year under report. The number of suits decreed *ex-parte* was 1,334 of which 28 were restored to file. Six out of sixteen applications for review of judgment were granted. Four applications to sue in *forma pauperis* were received, of these one was granted and three were rejected.

60. The total number of witnesses who attended the courts was 1,540 as against 1,886 in 1913: this is the lowest figure on record during the past decade.

61. Statement No. 66—*General result of the trial of miscellaneous cases*.—Including 57 pending at the close of the previous year the number of miscellaneous applications before the courts was 663; of these, 611 cases including 44 applications under the Guardian and Wards' Act, VIII of 1890, and six for probate and letters of administration, were decided.

62. Statements Nos. 67 and 68—*Regular and miscellaneous appeals*.—The total number of regular appeals including five pending at the close of the previous year was 34 as against 45 in 1913; of these, three were successful and three modified. There were eight miscellaneous appeals as against nine in the previous year. In five the orders of the lower court were confirmed, one was dismissed and two were pending at the close of the year. Twelve appeals out of seventeen including nine pending at the close of the previous year were decided by the Judicial Commissioner and in seven cases, the orders of the lower court were upheld. There were two miscellaneous appeals of which one was dismissed and the other remanded.

63. Statement No. 69—*Particulars of execution proceedings*.—The number of cases filed was 3,546. In 60·70 per cent. of those before the courts no recovery was effected.

64. Statement No. 70—*Results of insolvency applications*.—Of the 23 applications including five pending from last year, fifteen were withdrawn, one was rejected and two were granted; five were pending at the close of the year.

65. The total number of processes issued by all courts during the year was 15,808, the realisation from process fees being Rs. 8,457.

66. The quarterly and annual returns of the subordinate courts were scrutinized by the District Judge, and all the courts were inspected by that officer. There were eight first grade and twelve second grade pleaders practising in the province.

— Registration.
r (1914.)

ERRATUM.

Substitute the following for the first sentence in paragraph 66 of the Administration Report for 1914-1915.

“The number of schools rose from 75 to 77 owing to the opening of new schools at Boikeri and Maragodu.”

70. Statement No. 75—*Constitution of the District Board*.—The change in the *personnel* of the District Board during the year under

71. Statement No. 76—*Income of the District Board*.—Excluding the balance the receipts amounted to Rs. 84,031 as against Rs. 86,900 estimated in the budget.

72. Statement No. 77—*Expenditure of the District Board*.—The expenditure was Rs. 1,14,750 as compared with Rs. 1,13,370 budgetted for.

73. The number of schools rose from 75 to 76 owing to the opening of a school at Boyikeré. The attendance rose from 4,740 to 4,798. English taught in ten schools to 585 pupils against 483 in the previous year.

Out of the total number of 3,601 boys and 1,197 girls, 2,040 boys and girls were Coorgs by race. The percentage of children protected from smallpox was 93.01 against 92.72 in the previous year. There were nine schools for education of Panchamas of whom 214 were under instruction. In five of the schools caste boys were also admitted.

The total outlay on education was Rs. 25,745 as compared with Rs. 27,600 in the previous year representing a percentage of 30.63 of the total income. The ordinary expenditure charged against the direct income of the fund was Rs. 18,077 which represents a percentage of 23.66. The income from school fees was Rs. 3,713 against Rs. 3,285 in the previous year.

74. There were seven dispensaries against six in the previous year; the temporary dispensary at Srimangala having been made permanent. The total number of out-patients treated was 59,824 against 55,480 in the previous year. At the Somwarpet hospital, 307 in-patients were treated against 293 in the previous year and at Gonikoppal 100 in-patients received treatment as against 29. The principal ailments treated were malaria, dysentery, diarrhoea, and diseases of the digestive and respiratory systems.

The gross expenditure on dispensaries including sanitation (Rs. 14,169) was Rs. 1,171 more than in the previous year.

75. The Sanitary Inspector was engaged in inspecting the municipalities and *pettas*. He was also on plague duty at Fraserpet and Suntikoppa. The candidate who was selected for the post of second Sanitary Inspector joined duty during the latter part of the year under report after undergoing training in Madras. He worked for three months inspecting the *pettas* and municipalities in North Coorg and tendered his resignation at the close of the year. The appointment of the second Sanitary Inspector has therefore been kept open till a more favourable opportunity presents itself.

76. The number of travellers' bungalows (4) and of shelter houses for the use of immigrant coolies (4) remained the same as in last year. The fees realised from the bungalows (Rs. 667) failed as usual to cover the outlay incurred in the shape of establishment charges (Rs. 1,149).

The net revenue from tolls amounted to Rs. 13,297 against Rs. 22,485 in the preceding year. The decrease is chiefly due to the fact that in some cases the amount due for the year under report was collected in advance in the previous year and that in other cases the arrears were collected after the close of the year under report. There was no change either in the number (25) or in the working of the ferries; the revenue realised was Rs. 1,460 as compared with Rs. 1,526 in the preceding year.

Village communications and bridle-paths were improved at a cost of Rs. 3,989.

77. The grant for public works under the control of the Board was Rs. 62,170 and the expenditure Rs. 62,115.

78. Under *civil buildings* an expenditure of Rs. 14,722 was incurred on improvements to certain local fund schools and dispensaries, quarters for Sub-Assistant Surgeons and for constructing a dispensary at Srimangala. The annual repairs to local fund buildings account for an outlay of Rs. 442.

79. As usual the bulk of the expenditure was devoted to communications. On *original* works the gross outlay was Rs. 9,646. The greater part of this amount was spent on the following works:—

- (i) Constructing a bridge across the Kotail stream on the Mercara-Nalknad road.
- (ii) Opening out a road from Sidapur to Pollibetta.
- (iii) Reconstructing the Chicklehó bridge on the Fraserpet-Sidapur road.
- (iv) Widening the Gonikoppal-Pollibetta road.

Under 'minor works' a sum of Rs. 7,920 was spent on the construction or improvement of petty bridges and drains on lines of communication.

80. The outlay on repairs to communications amounted to Rs. 15,512. This includes Rs. 286 expended on travellers' bungalows, Rs. 323 on ferries, Rs. 415 on toll-gates and Rs. 389 on bridle-paths.

The length of communications maintained during the year was 169 miles and $7\frac{1}{2}$ furlongs of which 9 miles and $6\frac{1}{2}$ furlongs were metalled and 160 miles and one furlong unmetalled. The roads under the control of the Board were kept in order at an average cost of Rs. 75 per mile including the upkeep of bridle-paths.

81. Under miscellaneous public improvements a sum of Rs. 2,845 was spent; the more important being a well at Murnad and cattle pounds at Banavara, Katteputra and Hudikeri. The well at Murnad was still unfinished at the close of the year.

82. The balance of the public works expenditure represents the usual charges on account of establishment (Rs. 10,309), and tools and plant (Rs. 719).

83. Statements Nos. 78 to 80—*Constitution, income and expenditure of municipalities.*—The by-laws for the Mercara Municipality framed under the Coorg Municipal Regulation, 1907, were in force during the year. Municipal.
(1914-1915.)

Mercara Municipality.

84. There was no change in the constitution of the Committee. Thirteen meetings were held during the year: the average attendance of the ex-officio and non-official members was respectively 3·3 out of 4, and 7·4 out of 11.

85. Including the opening cash balance of Rs. 19,404 the receipts of the year amounted to Rs. 40,239 and the expenditure to Rs. 26,464 leaving a closing balance of Rs. 13,775. The gross demand, together with the outstanding balance at the commencement of the year (Rs. 1,112) was Rs. 21,979. The collections and remissions (Rs. 117) amounted to Rs. 20,952 leaving an uncollected balance of Rs. 1,027 at the close of the year.

86. The most important items of expenditure were Rs. 4,224 on improvements to Gowli bazaar, Rs. 3,960 on the drainage of swamps round Mercara, Rs. 3,627 under conservancy, Rs. 2,344 on the maintenance of roads and Rs. 1,003 on water-works.

87. A special non-recurring grant of Rs. 3,000 was made by Government towards the construction of a building and purchase of tools for the carpentry class attached to the Hindustani primary school. Of this sum, Rs. 448 was spent during the year in acquiring of sites.

Virajendrapet Municipality.

88. There was no change in the composition of the Committee except that Mr. E. Graham held the office of President from the 11th May to the 17th September 1914, while Mr. R. H. Ellis was officiating for the Commissioner. The average attendance at the ten meetings held during the year was 3·1 in the case of ex-officio and 4·7 in the case of non-official members, the total strength being five and nine respectively.

89. Including an opening balance of Rs. 9,009, the gross receipts aggregated Rs. 21,138 and the expenditure Rs. 11,823 leaving a closing balance of Rs. 9,365, of which Rs. 1,100 represents the amount deposited in Government promissory notes. The total demand under all heads of revenue, including an outstanding balance of Rs. 69 at the beginning of the year and Rs. 4,020 being the Government grant towards education, was Rs. 12,345: of this, Rs. 12,179 was collected leaving a balance of Rs. 166 at the end of the year.

90. An outbreak of plague in the district necessitated the taking of precautions to disinfect the houses and Rs. 413 was spent on this; much of it will be recovered from the house owners.

91. The progress of the tailoring institution is fairly satisfactory. The primary school for Panchamas continued to show steady progress. The grant of Rs. 2,500 towards the construction of a Hindustani school last year was found to be insufficient and an additional grant of Rs. 3,000 was received from Government. The construction of the building has been taken in hand and it is rapidly nearing completion. The sinking of a well in the main street was also undertaken. Water has been found within a reasonable distance of the surface and the well promises to be a success.

92. As in last year quinine was distributed to all the children in the municipal schools. The question of introducing new Municipal By-laws and a wheel-tax was taken up during the year and discussed. It is expected that the by-laws will be introduced during the coming year.

Notified Areas.

93. The average attendance of members at the seven meetings held by the Fraserpet Committee was 6.6, the total strength being ten. The income of the year, including the opening balance of Rs. 612, amounted to Rs. 1,828 and the expenditure to Rs. 924: the closing balance was thus Rs. 904. Rs. 92 was spent on road repairs and Rs. 477 under conservancy.

94. The Somwarpet Committee held six meetings at which the average attendance of members (11) was 6.6. The gross receipts of the year, including the opening balance of Rs. (1,484), was Rs. 4,274 and the expenditure was Rs. 2,313 leaving a closing cash balance of Rs. 1,961. The important items of expenditure were Rs. 825 under conservancy, Rs. 391 for road repairs and Rs. 519 for repairs to the Anékeré tank.

95. At the six meetings held by the Kodlipet Committee, the average attendance of members was 3.9, the total strength being six. Together with the opening balance of Rs. 876, the receipts amounted to Rs. 1,796 and the expenditure to Rs. 970. The cash balance at the close of the year was Rs. 826. Rs. 207 was spent under lighting and Rs. 402 under conservancy.

(Volunteering.) 96. The total strength of the Coorg and Mysore Rifles on the 31st March 1915
(1914-1915) was 250. The command was held by Lieut. Colonel G. R. Pearce, V D., and the adjutancy by Captain W. B. Roberts of the 101st Granadiers throughout the year. A combined camp of exercise was held in Mercara in March 1915.

IV.—PRODUCTION AND DISTRIBUTION. (1914-1915.)

Character of the seasons. 97. Statement No. 3—*Rainfall and climate.*—The weather conditions were abnormal practically no rain falling between November 1913 and June 1914. In spite of the long drought and the late sowing the rice crop was exceptionally good and uniform throughout the province as the monsoon was copious, though late. The outturn of dry crops was below the average. The coffee crop was poor as a natural result of heavy crop in the previous year on most of the estates. The cardamom crop was more affected by the drought in the early part of the season than any other industrial crop the result being that the outturn was the poorest on record for the past 20 years. The total rainfall in 1914 was 129.82 inches as compared with an average of 128 inches for the past fifteen years.

98. Statement No. 81—*Area under crops*.—The total area cropped during the year was 138,691 acres as compared with 138,205 acres in 1913-1914 or a net increase of 486 acres. Including the second crop cultivation (596 acres) the area under rice was 81,895 acres giving a percentage of 81.07 to the gross wet holdings (101,020 acres) as compared with 81.79 in the previous year. The decrease in the area cultivated was due to high mortality among plough cattle. The total area of dry holdings was 21,463 acres, the extent actually cropped being 7,094 acres, which includes 402 acres of second crop cultivation. The total extent held under the coffee tenure was 93,907 acres, which included (a) 9,356 acres of *ryotwari* cardamom *malés*, (b) 1,174 acres of orange gardens, (c) 37,085 acres of abandoned coffee or land granted for coffee but not planted and (d) 3,797 acres planted with rubber. The area under actual coffee cultivation is thus 42,495 acres as compared with 42,076 acres in the previous year. In addition to the area shown under (d) *supra* 3,367 acres are cultivated with rubber and 114 acres with *agave*.

99. The area which is estimated as being cultivated with cardamom, viz., 2,344 acres, is made up of (a) *jama malés* (389 acres), (b) leased *malés* (1,360 acres) and (c) coffee assessed *malés* (595 acres); the aggregate holdings under these heads being 2,012, 60,415 and 9,356 acres respectively (total 78,783 acres).

100. The 5,761 acres shown as "fruits and vegetables" include 5,445 acres of orange gardens of which 1,174 acres are cultivated in the area held under coffee tenure referred to in paragraph 98 *supra*. The extent of pepper cultivation on the holdings other than those under coffee tenure was 1,069 acres.

101. The area irrigated from Government channels and tanks was respectively 2,243 and 1,555 acres as compared with 2,427 and 1,692 acres in the preceding year.

102. Statement No. 82—*Rates of rent and produce*.—The outturn under rice and *ragi* was about normal. The coffee crop was poor, the estimated outturn being 2,100 tons against 3,682 tons in the previous year.

103. Statements Nos. 83, 93, 94, 95 and 96—*Prices, imports, exports, coinage and paper currency*.—Compared with the previous year there was no marked variation in the prices of rice and *ragi*. Owing to dullness in the coffee market there was a slight fall in the price of coffee when contrasted with that of preceding year. The import and export figures are for the most part compiled from the information supplied by the toll-gate contractors and cannot be relied on; nor is it possible to draw any inference as to the state of trade from the prescribed returns of coinage and paper currency.

104. Statement No. 85—*Live-stock*.—This is a quinquennial return prepared for the year under report. The total number of deaths among cattle from all causes aggregated 10,398 as compared with 7,431 in 1913-1914. Of this number, 649 were reported to be due to foot and mouth disease and 339 to anthrax. There was unusually high mortality, especially among plough cattle, in the Nanjarajpatna taluk.

105. Statements Nos. 86, 87, 88, 89, 90, 91 and 92 —*Cost of the Veterinary Department, etc.*—Including twelve elephants of the Forest Department, the number of animals treated by Veterinary Assistants on tour was 2,845 while 2,981 were attended to as out-patients at the dispensaries as compared with 1,945 and 1,832 in the previous year. The special work attended to by the Veterinary Assistants consisted of (a) delivering lectures to ryots and cattle owners on matters relating to the treatment of diseases and the management of cattle in general, (b) examining cattle on behalf of the Co-operative Cattle Insurance Societies and (c) the periodical examination of the ponies and mules belonging to the mail tonga service. The total receipts and expenditure of the department were Rs. 91 and Rs. 3,152 respectively. The general supervision of the department was, as in previous years, vested in Mr. Gustav Haller.

106. Statement No. 84—*Prices of Labour*.—The labour market was well supplied. There was no change in the rate of hire.

107. Experiments in the only farm at Sidapur were confined to potatoes, gram, maize, oranges and leguminous plants for green manuring and sericulture. The result of the silk-worm experiment is awaited with interest though it is doubtful whether the rearing of silk-worms will ever become a "cottage industry" in Coorg. The receipts and expenditure of the department were respectively Rs. 327 and Rs. 2,235.

Forests.

108. The area of the reserved forests remained the same as at the close of the previous year, viz:—333,002 acres.

109. Four hundred and ninety-nine cairns were repaired at a cost of Rs. 67. A sum of Rs. 19 was also spent in demarcation. The total cost under this head was Rs. 86.

The field work in connection with the preparation of the Working Plan of the ghât forests was commenced and 68 miles and 26 chains of lines were enumerated during the year. The cost under this head including the pay and travelling allowance of the Assistant Working Plans Officer amounted to Rs. 5,204.

110. The existing roads and buildings were kept in repair at a cost of Rs. 2,940 and Rs. 2,416 respectively. The road up the Barapolé valley was continued, and at the close of the year 2 miles of the road were complete with bridges. Blasting work was completed over 2 miles and 4 furlongs and earth work over 2 miles 5 furlongs. The cost incurred on this road during the year was Rs. 5,912.

111. In addition, $6\frac{1}{2}$ miles of bridle-paths were constructed and $92\frac{1}{2}$ miles repaired. 45 miles of traces were made for further bridle-paths. The construction of the drag paths referred to in last year's report was continued. One furlong of Sollekolli drag path was constructed and stones were collected and culverts built on Watekolli drag path over a distance of 3 miles 1 furlong. The cost of these works was Rs. 1,303.

The bungalow at Matré and the subordinates' quarters at Karinad, Kutompolé and Matré referred to in last year's report were completed during the year.

A Hydraulic Ram for supplying water to the "Knoll" bungalow was installed at a cost of Rs. 847.

112. The number of offences reported during the year was 22 against 31 in the previous year. Of these seven were compounded on payment of compensation by the delinquents, and in five cases the offenders were let off with a warning. In the remaining ten cases prosecutions were instituted of which six ended in conviction, one in acquittal and three were pending at the close of the year. The case which was pending at the close of last year ended in acquittal.

113. There were five fires covering an area of 208 acres as against thirteen fires covering 1,923 acres in the previous year. One of these fires was due to incendiarism, and the culprits were prosecuted and fined Rs. 25 and Rs. 2 respectively. Three other fires were attributed to endeavours of the part of certain Kurubars to obtain fresh grass for their cattle, but the culprits could not be traced. These four fires only burnt eight acres. The remaining fire occurred on the Tadiandamol hill in an area where experiments are being conducted with

a view to restore the growth of shola trees in the ravines. Of the 250 acres the protection of which was attempted for this purpose 200 acres were burnt but not much damage was done. The cause of this fire is unknown, but it was probably started by passers by throwing a lighted cigarette end into the grass.

114. The prescribed areas were as usual open to grazing and the revenue realised including the sale proceeds of grass amounted to Rs. 1,531 as against Rs. 1,036 in the previous year. Free grazing was permitted to persons who enjoy a customary right to it.

115. *Sowing sandalwood seed.*—The areas sown in former years (with the exception of the 1,912 area at Kurubarapanché near Murkal which is well stocked) were resown, and further areas of 54 acres at Murkal, 50 acres at Bambukadu (Tittimatti), and 30 acres near Kargode were sown.

116. *Other sowings.*—456 blanks caused by the felling of trees in Mawkal coupe 1 and 2,000 blanks in Hatgat coupe 1 were sown with teak, honné and biti seeds. 705 acres where bamboos had seeded in South Coorg and Dubaré were sown with teak, honné and biti. Seeds of these species were also sown over 225 acres in Anékad forest where lantana had been cleared. Seeds of ever-green species were sown along ten miles of stream banks in coupe 1 Hatgat and four miles in coupe 1 Mawkal; as also over 258 acres in the sandal range. Nine acres of Mallikatté teak kumri were sown with seeds of aini. 656 acres of kumri in Hatgat, five acres of Malagamani, 133 acres in Cauvery and 453 acres in Bhagamandala Range were weeded. 31 miles of inspection paths were cleared. Inferior species over 225 acres of Muthugadaré kumri were girdled. The total expenditure under sowing and planting was Rs. 9,799 as against Rs. 11,121 in the previous year.

117. The eradication of lantana was continued during the year. In reserved forests 4,000 acres were cleared at a cost of Rs. 10,507. 2,185 acres of this area were sparsely stocked with lantana, and the cost was only Rs. 729. 548 acres of paisaris were also cleared at a cost of Rs. 2,580. In reserved forests the lantana on 75 acres, and in paisaris that on 60 acres was cut and burnt at a cost of Rs. 205 and Rs. 153 respectively. The regrowth on 4,118 acres of reserved forests and 1,311 acres of paisaris was uprooted at a cost of Rs. 3,874 and Rs. 1,465 respectively. In addition to these sums Rs. 1,349 were spent on temporary establishment, erecting sheds, purchase of tools, etc. The areas on which lantana was uprooted for the first time were as follows:—

	Acres.		
Nalkeri and Hatgat forests	178
Mawkal coupes 1 and 2	2,540
Balumani teak plantation	40
Anékad forest	1,011
Dubaré forest	82
Kuttepura forest	5
Nidtha sample area	1
Juggankadu sandal area	56
Mercara plantations	87
Paisaris near Fraserpet	210
Paisaris south of Kargode	338
Total	4,548

The total expenditure on lantana during the year was Rs. 20,133.

118. The quantity of timber felled departmentally in reserved forests was 265,636 cubic feet against 228,968 cubic feet in the previous year. The timber felled by purchasers was 152,969 cubic feet as against 112,500 cubic feet in the previous year. 372 tons of rough sandalwood were collected. 236 tons of this wood were converted into 219 tons of clean wood of which 3½ tons were

sold for Rs. 2,805. The revenue realised under this head, viz:—Rs 45,582 represents chiefly the sales of the previous year, the proceeds having been collected during the year under report. The number of bamboos and reeds removed was 112,000 and 62,600 as against 104,575 and 46,200 respectively in the preceding year.

119. The revenue realised from cardamoms was Rs. 18,068 as against Rs. 19,766, and that from minor forest produce was Rs. 2,993 against Rs. 4,220 in the previous year.

120. A sum of Rs. 7,256 was recovered on lands taken up for cultivation against Rs. 4,515 in the previous year. The total valuations made by forest officers were 57 against 44 in the previous year.

121. No free grants were made during the year.

122. Four elephants were captured during the year. One of the elephants captured in the previous year died. Four of the previous captures were sold by auction at Cannanore for Rs. 5,175. The cost of the capture and training amounted to Rs. 1,502 against Rs. 982 in the previous year. The feed and keep of the whole stud including buffaloes amounted to Rs. 10,649.

123. Including receipts in foreign treasuries and book adjustments the total revenue and expenditure of the year amounted to Rs. 1,99,237 and Rs. 1,75,734 respectively and the net surplus realised was Rs. 23,503. The figures for the previous year were:—Revenue Rs. 3,29,226, expenditure Rs. 1,78,463, surplus Rs. 1,50,763. The decrease in revenue is due to the dislocation of trade caused by the war, to the congestion of timber in the forests and to the expenditure in connection with the special working plans party. Owing to these causes very little timber and sandalwood was sold.

124. Mr. H. Tireman continued to be in charge of the Division till 2nd March 1915 when he went on leave and was relieved by Mr. E. M. Crothers, Extra Assistant Conservator of Forests, who held charge until the close of the official year in addition to his own duties. Mr. N. E. Shrigley, Assistant Working Plan Officer, was on special duty in connection with the preparation of the working plans of the ghât forests.

Mines and
quarries.

125. There are neither Act-mines nor non-Act mines in Coorg. Granite and laterite are worked from small quarries for the purpose of metalling roads but no account of the quantity raised is kept. A large quantity of clay is used for making bricks.

Manufactures.

126. There are no factories in Coorg and manufactures in the ordinary sense of the term are locally unknown.

Public works.

127. The revenue credited to Imperial Public Works amounted to Rs. 6,971 and was realised chiefly from the sale of old materials, rent of buildings, hire of tools by contractors and refunds and miscellaneous; Rs. 48 appertained to "Military" and the balance to civil receipts.

128. Including charges debited to Military works and outlay on stock not charged against any sanctioned works, the expenditure for the year aggregated Rs. 5,08,466 against the grant of Rs. 2,92,895.

129. A sum of Rs. 611 was incurred against a grant of Rs. 600 on improvements and repairs to the quarters of the Sergeant-Instructors at Mercara, Chickmagalur, Pollibetta and Saklespur. (Military.)

130. The expenditure on civil buildings was Rs. 83,929 against a grant of Rs. 66,176. The major works undertaken were:—(a) constructing a hostel for 50 boys with subsidiary buildings for the Central High School, Mercara, Rs. 16,801, (b) constructing a Dormitory for the Girls' School, Mercara, Rs. 10,591, (c) constructing quarters with outhouses for the residence of the District Magistrate of Coorg, Rs. 7,090, (d) constructing quarters with outhouses for the Forest Sub-Divisional Officer at Virajendrapet, Rs. 676 (total cost Rs. 8,514), (e) constructing quarters for the Public Works Department Sub-Divisional Officer at Virajendrapet, Rs. 2,002, (f) constructing a Model School at Virajendrapet, Rs. 6,771 (total cost Rs. 11,196). (Civil.) Buildings.

131. On minor works a total expenditure of Rs. 23,905 was incurred. Rs. 16,094 were spent on repairs to civil buildings.

132. The outlay on communications aggregated Rs. 1,34,287 against a grant of Rs. 1,34,340. The expenditure on original works was Rs. 33,826 against a grant of Rs. 32,270. The major works in progress were:—(i) metalling the fifth and sixth miles of the Fraserpet-Sirangal road (Rs. 212), (ii) metalling the worst portions of the Gonikoppal-Wynaad road (Rs. 2,498), (iii) constructing a bridge at 131/6 of the approaches to the Periambadī ghāt (Rs. 255), (iv) reconstructing the Katakari bridge at 157/8 on the Sampaji ghāt road (Rs. 4,341). The work of raising the Mercara-Periambadī road on the south margin of the Cauvery at 12/5 and 12/6 referred to in last year's report was completed at a total cost of Rs. 6,078. Communications.

133. On minor works a sum of Rs. 23,836 were spent during the year.

134. Including the usual outlay on the upkeep of bungalows, cooly lines and bridges, the disbursements on account of repairs amounted to Rs. 1,00,461. The length of metalled and unmetalled roads maintained during the year was 200 miles one furlong and 43 miles and one furlong respectively.

The average cost of repairs worked out at Rs. 413 per mile.

135. The rain-gauges at various centres were, as usual, kept in repair during the year.

136. The grant under irrigation was Rs. 7,000, of which Rs. 5,691 were spent. The works in progress were:—(i) the opening out of a feeder channel from Anékad tank to Chiklehólé channel and (ii) reconstructing the right sluice of Mullar tank referred to in last year's report. Irrigation.

137. The expenditure on establishment and tools and plant was Rs. 76,985.

138. The department remained under the control of the Public Works Department of Madras and attached to the Fourth Circle, the Superintending Engineer of which continued to be the controlling officer and professional adviser to the Chief Commissioner.

139. Mr. A. G. Romilly, Executive Engineer, continued to be in charge of the Division until 30th March 1915 when he handed over charge to Mr. F. E. Schembry, Honorary Assistant Engineer, on proceeding to England on six months' combined leave preparatory to retirement. Mr. F. E. Schembry held charge only until 31st March 1915 when charge was assumed by Mr. M. Brown.

V.—REVENUE AND FINANCE. (1914-1915.)

Imperial Revenue and Finance.

Gross Revenue

140. The gross *demand* under all heads of Imperial revenue (Rs. 8,38,799 as compared with Rs. 9,15,444 in 1913-1914) showed a net decrease of Rs. 76,645. The important decreases were under Forest (Rs. 70,056), Excise (Rs. 2,509) and Stamps (Rs. 2,028). The reasons for these decreases are given in paragraphs 123, 147 and 158 respectively.

141. Statement No. 97—*Gross and net revenue*.—The gross receipts (Rs. 8,45,081) as compared with the figures of 1913-1914 show a net decrease of Rs. 86,643, which is chiefly under Forest, Excise, Stamps and Public Works. The decrease under the Public Works is nominal as the receipts in the previous year were swelled by the credit of Rs. 15,000 contributed by the Mercara Municipality for carrying out works in connection with the water-supply and the draining of swamps. The expenditure charged against income was Rs. 3,67,243, while the net receipts were Rs. 4,77,833 against Rs. 5,92,768 in the previous year.

142. Statement No. 98—*Expenditure from net income*.—The expenditure charged against net income amounted to Rs. 6,17,917 as compared with Rs. 5,83,383 in 1913-1914 or a net increase of Rs. 34,534: this was almost entirely due to additional expenditure under Public Works.

143. The net result of the Imperial transactions of the year was thus a deficit of Rs. 1,40,084. If allowance be made, however, for forest receipts on account of supplies to Government departments adjusted by book transfer and for payments made into treasuries outside Coorg, which amounted to Rs. 9,140 and Rs. 1,26,936 respectively, the deficit is reduced to Rs. 4,008.

144. Statement No. 99—*Cash transactions*.—The total receipts (Rs. 39,01,875) as compared with those of previous year show an advance of Rs. 1,14,589 owing to larger remittances received from treasuries outside the district. The total expenditure (Rs. 37,03,911) was less by Rs. 1,99,489 than that of 1913-1914, owing chiefly to smaller remittances to other treasuries and to less number of supply bills cashed during the year. The closing balance thus rose from Rs. 3,92,567 to Rs. 5,90,531.

Land Revenue.

145. Statement No. 6—*Land Revenue*.—The gross demand including the outstanding balance (Rs. 70,451) amounted to Rs. 4,35,684, of which Rs. 3,60,334 were collected and Rs. 320 were remitted, leaving a balance of Rs. 75,030 at the end of the year.

Salt, customs
and opium.

146. No revenue is derived in Coorg from salt or customs and the receipts from the sale of imported opium are included under the head "Excise."

Excise.

147. Statements Nos. 100 and 101—*Excise receipts and charges*.—The total receipts and charges amounted respectively to Rs. 2,63,505, and Rs. 9,391 giving a net revenue of Rs. 2,54,114 or a decrease of Rs. 1,266 as compared with the previous year. The important variations in receipts were under (a) license fees on country liquor (+ Rs. 3,548), (b) rent on toddy shops (+ Rs. 3,400), (c) duty on ganja (+ Rs. 1,800) and (d) still-head duty (— Rs. 9,860). The increases under (a) and (b) were owing to better bids during the auction sales and the advance under (c) to the enhancement in the rate of duty from Rs. 7-8-0 to Rs. 10 per seer. The decrease under (d) is attributable to the smaller quantity of country liquor issued from the warehouse on which duty was levied.

148. Statement No. 102—*Manufactures, licenses and shops*.—The bonded warehouse is situated at Mercara. The number and location of the wholesale shops remained the same as in the previous year. There was no change in the number of retail foreign liquor shops. The numbers of arrack and toddy shops

were reduced by three and six respectively and now stand at 24 and 75. The license fees from these shops fetched Rs. 54,325 and Rs. 50,078 against Rs. 50,777 and Rs. 46,678 in 1913-1914. There was no change in the number of opium and ganja shops. Owing to low sales in the arrack shops at Suntikoppa for a time due to outbreak of plague a remission to the extent of Rs. 383 was granted. Steps will be taken to reduce the hours of sale to between 8 A.M. and 7 P.M. from 6 A.M. to 9 P.M. It has not been found necessary to appoint formal advisory committees to deal with the number and location of liquor shops but the suitability of each site in Municipalities is discussed by the Vice-President of the Municipality concerned, the member appointed for the ward and the adjacent residents, the question being finally settled by the Divisional Officer subject to the approval of the Commissioner.

149. The steps taken in previous years for restraining excessive home consumption of toddy were continued with satisfactory results.

150. Statement No. 103—*Duty and consumption of spirits and drugs.*—The contract for the import and wholesale supply of arrack remained in the hands of Messrs. Hajee Ismail Sait and Sons of Bangalore. The rate of duty remained the same, viz., Rs. 3-15-0 per gallon of 30° under proof. The quantity of arrack issued from the warehouse was 36,339 gallons as compared with 39,770 gallons in the previous year.

151. The wholesale supply of opium and ganja was, as in previous years, managed departmentally: opium was imported from Madras and ganja from North Arcot. The quantity of opium sold was 45 seers and 60 tolas and that of ganja 676 seers and 49 tolas—a decrease of eight seers and 74 tolas and 166 seers and 31 tolas respectively as compared with the figures of previous year. The falling off in ganja is apparently due to the lessening in the demand on the part of traders coming from Mysore.

152. Statements Nos. 104 and 105—*Incidence of consumption, and demand, collection and balance of excise revenue.*—The total demand was Rs. 2,62,672—a net decrease of Rs. 2,509, as compared with that of previous year, chiefly under still-head duty. The total incidence of still-head duty and license fees per gallon of London proof was Rs. 7-13-6.

153. Statement No. 106—*Excise offences.*—The number of prosecutions instituted (59) was 13 less than that of previous year. Twenty-four of these cases relate to illicit distillation and possession of paddy arrack and 24 to sale of toddy without license. There were no cases of drunkenness on licensed premises during the year and no useful figures relating to drunkenness in general could be collected. A sum of Rs. 2,014 was realised on account of fines, out of which Rs. 277 was distributed as rewards to excise and police officers and to informants as compared with Rs. 326 in 1913-1914.

154. Statement No. 107—*Working of the Excise Department.*—The subordinate excise staff was under the direct control of the Excise Inspector and the inspection work of the preventive establishment was satisfactory.

155. Statement No. 108—*Wholesale and retail vend of foreign liquors.*—The number of retail shops for the sale of foreign liquors was 8 as in the previous year. Two of these enjoyed wholesale licenses for three months. There was an improvement in the sale of spirits.

156. Due regard was, as usual, paid to the opinions of neighbouring planters and ryots in the matter of location of both arrack and toddy shops: representative local men were also consulted.

157. No cocaine was confiscated during the year. The quantity required by the medical profession is imported direct from the druggists.

158. Statements Nos. 109 to 112—*Receipts and charges under Stamps.*—The receipts and charges aggregated Rs. 60,033 and Rs. 1,501 respectively giving a net revenue of Rs. 58,532 against Rs. 60,328 in the preceding year. The decrease in the surplus is due to diminution in receipts under both general and court-fee stamps attributable respectively to the fall in the number of documents registered and in the number of suits instituted during the year 1914.

159. Statements Nos. 113 and 114—*Insufficiently stamped or unstamped instruments and stamp prosecutions and results.*—The aggregate sum levied in respect of duty and penalty was Rs. 1,343 on 281 documents impounded under the Stamp Act. There was no stamp prosecution during the year.

160. Statement No. 115—*Action taken to test the valuation of estates.*—No application for probate and letters of administration was filed during the year.

Income-tax.

161. Statement No. 116—*Collections of the tax from salaries, pensions, etc.*—The total collections under this head amounted to Rs. 3,097 against Rs. 2,933 in the previous year. The increase is due to new appointments to certain posts with progressive salaries.

162. Statement No. 117—*Realisations from interest on securities.*—The amount collected (Rs. 112) was Rs. 40 less than in the previous year. The following Government securities to the aggregate amount of Rs 50,700 were exempted:—the Mercara School Endowment Plantation Fund, Rs. 31,000; the Thomson Prize Fund, Rs. 1,300; the Fraser Endowment Fund, Rs. 500; the Proclamation Jubilee Prize Endowment Fund, Rs. 100; the Koravanda Bollavva Nanjappa's Charity Fund, Rs. 5,000; the Kodandera Tangavva Prize Fund, Rs. 1,000; the municipal committees, Rs. 1,800; and the Coorg District Board, Rs. 10,000.

163. Statement No. 118—*Collections of the tax from all sources.*—The increase of Rs. 164 under salaries, pensions, annuities and gratuities paid by Government has been explained above. No taxable salary or pension was paid by any local authority, nor were there any assessments to income-tax under the head "profits of companies" during the year. There was an increase of Rs. 376 in the revenue from salaries, etc., paid by companies and private employers. The collections under other sources of income shows an increase of Rs. 820 which is due to the inclusion of new assesses.

164. Statement No. 119—*Original and final demand and uncollected balance.*—The final demand under salaries and pensions was Rs. 8,057 against Rs. 8,219 and the aggregate assessment on other sources of income was Rs. 3,531 as compared with Rs. 3,564 in the previous year. There were in all 21 objection petitions against 35 in the previous year resulting in a total reduction of Rs. 137. Of the final demand under all heads including arrears, viz., Rs. 13,838, all but Rs. 1,243 were collected before the close of the year. Of the balance, a sum of Rs. 813 has since been recovered, leaving Rs. 430 for collection.

165. The collections of the tax as usual devolved on the ordinary revenue establishment of the province and no extra expenditure was incurred on the assessment during the year. The First Assistant Commissioner exercised the functions of Collector of Income-tax as in the previous year.

Forests.

166. The forest receipts, including a sum of Rs. 1,36,076 realised outside Coorg or adjusted by book transfer, amounted to Rs. 1,99,237, and the charges, as debited in the treasury accounts, to Rs. 1,67,858. The net surplus was thus Rs. 31,379, which was Rs. 1,22,942 less than that of previous year.

Revenue and Finance other than Imperial.

The District Fund.

167. Including an outstanding balance of Rs. 5,634 at the commencement of the year, the gross demand of the District Fund amounted to Rs. 95,585. The collections and remissions aggregated Rs. 84,159 leaving an uncollected balance of

Rs. 11,426 at the close of the year. With the opening cash balance (Rs. 39,869) the gross receipts of the fund amounted to Rs. 1,23,900, and the expenditure to Rs. 1,14,750 leaving a closing balance of Rs. 9,150.

168. Including an outstanding balance of Rs. 1,497 the total demand of the municipalities and the notified areas amounted to Rs. 39,671. The collections and remissions aggregated Rs. 38,096 leaving an uncollected balance of Rs. 1,575. Together with an opening cash balance of Rs. 30,285 the receipts amounted to Rs. 68,225 and the expenditure to Rs. 42,494 reducing the closing balance to Rs. 25,731.

Municipal
Funds.

169. The opening cash balance of the Mercara School Endowment Fund was Rs. 1,214. The receipts and expenditure amounted respectively to Rs. 1,425 and Rs. 2,130: the closing balance was thus reduced to Rs. 509.

The Mercara
School Endow-
ment Fund.

VI.—VITAL STATISTICS AND MEDICAL SERVICES.

170. Statement No. 120—*Particulars of births, deaths and marriages in towns.*—The excess of deaths over births is chiefly due to the mortality among the immigrant coolies admitted into hospitals at Mercara and Virajendrapet.

Births and
deaths.
(1914.)

171. Statement No. 121—*Births registered.*—The number of births (4,590) registered was 61 more than in 1913. Of these, 73 occurred in families not permanently resident in the province. Male births exceeded female by 104.

172. Statement No. 122—*Births and deaths registered.*—5,958 deaths (34.05 *per mille*) were recorded against 5,859 in 1913 and 6,713 in 1912; of these, 365 occurred among individuals not permanently resident in the province. The high mortality is chiefly attributable to the prevalence of malarial fever, dysentery and diarrhoea. The death-rate among females was higher than among males.

173. Statement No. 123—*Deaths registered during each month.*—The mortality was, heaviest in the months of May, June, July and August. The healthiest season of the year was the last quarter.

174. Statement No. 124—*Deaths registered according to age.*—Excluding infants, deaths were more numerous in the age groups from 20 to 30 and 30 to 40 which comprised the bulk of the immigrant cooly population.

175. Statement No. 125—*Deaths registered according to class.*—The mortality among Hindus was slightly higher than in the previous year, while the death-rate among Coorgs was 42.06 *per mille* as compared with the general average of 38.37.

176. Statement No. 126—*Deaths registered from different causes in towns and districts.*—As usual, fever caused the greatest number of deaths (4,802), while dysentery and diarrhoea were responsible for 177. The mortality in municipal areas was higher than in the previous year.

177. Statements Nos. 127 and 128—*Deaths registered from cholera and small-pox.*—There was no death from cholera during the year. The deaths from small-pox rose from 41 to 114.

178. Statement No. 129—*Deaths registered from fevers.*—There was an increase of 218 deaths under this head as compared with the previous year, the ratio *per mille* being 27.44 against 26.20. The mortality was highest in the months of June and July and lowest in February.

179. Statement No. 130—*Deaths registered from dysentery and diarrhoea*—The mortality ascribed to this cause was 177 being 22 less than in the previous year.

180. Statement No. 131—*Deaths from plague*.—Plague accounted for 10 deaths against the same number in the previous year.

181. Statement No. 132—*Deaths from respiratory diseases*.—The rate of deaths *per mille* from this cause was 0·31 as compared with 0·41 in the previous year.

182. Statements Nos. 133 and 134—*Ratio of deaths from small-pox, fever, dysentery and diarrhoea and comparative statement of mortality and meteorological statistics with prices of food-grains*.—From the latter return it will be observed that the mortality was higher than in the previous year but lower than in 1910 and 1912.

Emigration and
immigration.
(1914-1915.)
Medical relief.
(1914.)

183. There are no recruiting stations in Coorg and no record is kept of emigration and immigration.

184. Statement No. 135—*Hospitals and dispensaries*.—The Mercara Jail hospital is excluded from this statement as it is dealt with separately. Of the twelve other institutions, three are of a private character and are maintained in the "Bamboo" district by the South Coorg Medical Relief Fund.

185. Statements Nos. 136 to 142—*Accommodation, number of patients treated during the year and the rate of mortality among in-patients*.—There was an increase of 14,768 in the total number of patients (101,144) treated in the Imperial and local fund dispensaries, while 8,653 against 8,235 in the year 1913 received treatment in the three private institutions in South Coorg. The in-patients all of whom were treated in the public institutions numbered 3,096 or 40·4 more than in the previous year; the rate of mortality was 10·89 against 9·81.

186. Seventeen persons were treated for plague at Suntikoppa in consequence of an outbreak at that place in December 1914.

187. Twenty-four patients suffering from small-pox were treated as compared with sixteen in the previous year; one of them died. The contagion in most of the cases was traced to persons who had carried the disease from adjoining districts in Mysore and the West Coast.

188. Statement No. 143—*Patients under treatment according to sex and race*.—As in the previous year, the proportion of adult males treated exceeded that of females by more than three to one.

189. Statement No. 144—*Operations performed*.—Operations numbered 1,474 against 1,482 and the percentage of success was 97·56 against 97·88 in 1913.

190. The sale of quinine to the public through the agency of the post offices continued during the year. The number of powders sold was 52,900 as compared with 45,050 in the previous year.

191. Statement No. 145—*Income and expenditure of hospitals and dispensaries*.—Excluding the pay and allowances of the Civil Surgeon and the reserve sub-assistant surgeons which are not debitable to any specific institutions, the total expenditure on medical relief was Rs. 29,343 or Rs. 276 less than in the previous year.

192. Lieut.-Colonel J. L. Macrae, I.M.S., was in Medical charge of the Department throughout the year.

193. All the *pettas* were inspected during the year by the Civil Surgeon, who is also the Sanitary and Health officer, the Commissioner or the Assistant Commissioners. The duties of the Sanitary Inspector were mainly confined to the periodical inspection of the municipalities and *pettas*, and the supervision of meat supply in Mercara, but he was engaged for a considerable time at Santikoppa in the supervision of the total disinfection of the village and other preventive measures in connection with plague. Wells were sunk in two *pettas*, the funds being supplied by the District Board. A sum of Rs. 451 was spent in supplying water from the spring at mile 150/3 Mercara-Fraserpet road to the residents of Boikeri in addition to the execution of repairs to several tanks in the province. The following sanitary works were carried out in Mercara at a cost of Rs. 12,553 during the year:—(a) draining the school and *petta* swamps, (Rs. 4,594); (b) constructing a subsidiary tank below the reservoir, (Rs. 3,709); and (c) improving the Gowli quarters and swamps, (Rs. 4,250). Besides this, the piped water-supply was extended to Hill Road and the houses on the west of Mercara.

194. Statement No. 147—*Sanitary works and comparison of mortality prior and subsequent to the construction of the Mercara water-works.*—As remarked in previous years no safe inference can be drawn from this statement as the municipal death-rate fluctuates considerably from year to year with the numbers of immigrant coolies brought to the hospital in a moribund condition. The water supplied is of excellent quality and the quantity available was ample for all except during a short period of the year.

195. Statement No. 148—*Summary of vaccination work.*—The number of operations performed was 13,988. Of these, 8,592 were primary cases and 5,396 were re-vaccinations against 8,728 and 4,423 respectively in the previous year. The percentage of successful cases was 96·66 and 85·29 respectively compared with 94·91 and 87·27 in 1913-1914. Only calf lymph was used.

196. Statement No. 149—*Cost of the vaccine department.*—There was no change in the establishment which consisted of eight vaccinators. The total cost including supervision charges, amounted to Rs. 3,027.

197. Statement No. 150—*Dispensary vaccination.*—426 vaccinations were performed by the staff of the Jail hospital and the dispensaries of the province compared with 224 in 1913-1914. Of these, 152 were primary cases and 274 were re-vaccinations; the percentage of success was respectively 100·00 and 86·27 compared with 96·05 and 78·52 in the preceding year.

198. Statements Nos. 151 and 152—*Number and result of primary vaccinations during the last decade and verification of vaccinations*—3·02 per cent. of these cases were inspected by the Civil Surgeon and 43·70 per cent. by the Assistant Surgeon and the Inspector of Vaccination compared with 3·13 and 46·25 respectively in the previous year.

199. Statement No. 153—*Infantile vaccinations in municipal areas.*—From October 1913 to September 1914, 203 infants were born. One hundred and forty-seven children under one year old were available for vaccination and the total number vaccinated was 116.

200. Statement No. 154—*Statistics of vaccination and mortality from small-pox during the past fifteen years.*—The number of successful vaccinations was considerably above and the number of deaths from small-pox considerably below the average.

VII.—INSTRUCTION. (1914-1915.)

General system
of public
instruction.

201. The standing information on this subject is printed at pages 33 and 34 of the administration report for the year 1911-1912 under the heading "General System of Public Instruction."

Education—
Preliminary
remarks.

202. During the year under report there were no important changes in the educational arrangements of the province. With a view to improve Muhammadan education, a number of secondary schools and elementary school scholarships were made available for Muhammadans, and Muhammadan assistants were appointed to teach Urdu in four of the Anglo-Vernacular elementary schools.

General
summary.

203. Statements Nos. 155 and 157—*General Statistics of attendance*.—On the 31st of March 1915, there were in all 105 public institutions with 7,937 pupils in attendance as against 7,684 during the previous year. A new local fund boys' school at Boikeri and a Government girls' school at Hudikeri were opened during the year. The number of Basel Mission schools fell by one, the Mission Panchama school at Balelé having been closed. The number of private schools and the attendance in them was 19 and 364 as against 16 and 355 in the previous year. The percentage of pupils under instruction to the total population of school-going age was 21·68 as against 21·01 for the year 1913-1914, the percentage being higher in the case both of boys and girls.

204. The educational institutions in the province consisted of one training school, one upper secondary school and one lower secondary girls' school at Mercara and one lower secondary school at Virajendrapet and 101 elementary schools throughout the province. English was taught as an optional subject in 20 of the elementary schools. These figures exclude the 19 private schools mentioned in the preceding paragraph, all of which were elementary. The private lower secondary school at Ammatti continued to exist. This school does not at present fulfil any of the requirements of the Education Department, but it is understood that the management is attempting to collect funds with a view to place the institution on a better footing.

205. Statements Nos. 159 and 160—*Stages of instruction and results of examinations*.—There was a further increase during the year under review in the number of pupils in the high and primary stages of instruction, both in the boys' schools and the girls' schools, but in the middle stage there was a decrease of 23 pupils. The results of the examinations are dealt with in paragraphs 215 and 229 *infra*.

206. Of the 105 public institutions at the end of the year, fourteen were managed by Government, seventy-seven were under the control of the District Board, five were municipal institutions and nine were aided either by Government, by the District Board or by the Municipalities, eight of these being missionary institutions.

207. Statement No. 163—*Scholars according to sex, race or creed*.—As usual non-Brahmin Hindus (7,142) formed the predominating element among the school-going population and included no less than 4,864 Coorgs. The number of Coorgs and Muhammadans attending school increased by 208 and 98 respectively, while the number of Brahmins decreased by 26. There were seven Jain pupils under instruction during the year. There was no appreciable change in the number of children of other communities under instruction.

208. An examination of the social position of the parents of the children attending public institutions showed that the majority (76·65) were dependent on agriculture. The percentages recorded as belonging to the poorer, middle and richer classes were 77·24, 22·35 and 0·41, respectively, against 75·54 and 22·73 and 1·77 of the previous year.

209. The percentage of pupils protected from small-pox was 95·56 as against 94·95 of the previous year.

210. Statements Nos. 156, 158 and 161—*Expenditure on education*.—The total expenditure on public instruction was Rs. 1,04,153 during the year as against Rs. 91,223 in 1913-1914, the distribution according to the sources of income being as follows :—

Imperial Funds	60·95
Local Funds	16·86
Municipal Funds	1·65
Fees	15·62
Other sources	4·92

211. The additional expenditure during the year was met by the Imperial Government and was mainly due to a grant for the equipment of the Central High School, Mercara, and building grants for the Hindustani schools at Mercara and Virajendrapet.

212. The private contributions to expenditure consisted of subscriptions in aid of the mission schools and of the income from the Mercara School Endowment Fund. During the year a total sum of Rs. 990 was disbursed from this fund for scholarships to students studying in professional colleges and secondary schools and for the upkeep of the boarding house attached to the Central High School. The average cost of educating each pupil in the primary and secondary schools was Rs. 6-12-10 and Rs. 55-11-6 as against Rs. 5-11-9 and Rs. 54-2-2 respectively in the previous year. In the Lower Secondary girls' school, Mercara, the average cost of educating a girl amounted to Rs. 75-5-9 against Rs. 77-2-2 in the previous year, while the cost to provincial revenues amounted to Rs. 35-1-8 against Rs. 37-14-10 in the previous year. The average cost of educating each student in the Government Training School was Rs. 181-9-6 against Rs. 212-4-6 in the previous year.

213. Mr. T. O. Hodges was in charge of the Ninth Circle throughout the year. He paid four visits to Coorg during the year, the first and the last being for the inspection of the elementary schools in Coorg. The second was mainly for the inspection of secondary schools and during the third visit the final test for Teachers' Certificate was held. The Assistant Inspector inspected 119 schools during the year travelling 1,138 miles and also paid surprise visits to several schools not included in the programme. The Supervisors constantly toured within their ranges paying on an average 3 visits to each school during the year. Revenue officers from Subedars upwards paid frequent visits to the schools.

214. There are no colleges in Coorg, but 10 scholarships of the monthly value of Rs. 10 and Rs. 15 each tenable in Arts and professional colleges outside Coorg are awarded annually.

215. In the three secondary schools the total attendance rose from 510 to 535, 109 of these being girls. The average number on the rolls was 524 as compared with 508 in the previous year. Eleven candidates from the Mercara High School went up for the Secondary School Leaving Certificate examination, and the results were satisfactory being well above the average for the Madras Presidency in most of the subjects. The school average in English was twelve above the Presidency average showing that there has been a marked improvement in the teaching of this subject.

216. Since the last report the Government of India, sanctioned a sum of Rs. 5,000 for improving the equipment of the school. This sum was spent on the purchase of additional furniture, apparatus and books for the school library.

217. Mr. S. A. Steele was in charge of the Central High School, Mercara, during the year, and also supervised the Government English School, Virajendrapet. The difficulty experienced in securing the services of graduates for the High School reported last year continues to be felt and teachers have still to be found outside Coorg. As a partial remedy, the Plantation Endowment Committee intend awarding a scholarship tenable by a Coorg for studying in the Arts college on condition that after graduation, he agrees to serve in the Coorg Educational Department.

218. The two hostels attached to the Central High School, continued to be well-filled. Mr. T. V. Nagarathnam Pillai's bungalow was purchased in March 1915 and is being fitted up for the residence of the Gondagal boarders. The construction of a new hostel for Coorgs on a healthy site is also being pushed forward.

219. The school magazine was re-started and issued during the year but owing to limited resources of the District Press, Mercara, the issue for September 1914 was published only in April 1915. Unless the Old Boys' Society makes a larger contribution towards the cost of printing the magazine, the latter cannot be published as soon as the manuscripts are ready. The celebration of the school day of the old boys has been fixed for the 15th October 1915.

220. The number of sections of various classes having increased, additional rooms for holding the same are necessary and admissions will have to be restricted until the new hostels are built.

221. The English School at Virajendrapet continued to be under the management of M.R.Ry. M. Srinivasa Rau, supervised by the Headmaster of the Central High School, Mercara. There were 43 boys residing in the hostel of the school.

222. During the year quinine prophylactic treatment was continued in the two secondary schools and the model schools at Mercara and Somwarpet. The Headmaster of the Central High School considers that this measure has been productive of good results as there were few cases of fever in these schools.

Primary
education.

223. As shown in paragraph 203 above, the number of primary schools increased by two during the year, and the attendance rose from 7,149 to 7,365. In many of these schools, in addition to the compulsory subjects, geography, nature study, elements of hygiene and outlines of Indian history and civics are taught, while garden work, clay-modelling, and other manual occupations are employed both on account of their intrinsic value and as a relief from intellectual work. The school garden has always formed a feature of elementary education in Coorg.

224. In teaching many of the subjects, kindergarten methods are adopted. Schemes of study involving a certain amount of practical work have been drawn up for such subjects as arithmetic, geography, nature study, etc., in the larger elementary schools. With a view to render the teaching of geography more realistic some more lantern slides were purchased during the year. Seven lantern lectures on the European War were also delivered by the Assistant Inspector at certain selected centres of the province the gate money realised amounting to over Rs. 250 being made over to the Imperial War Relief Fund.

225. Organised games and sports including national dances and exercises are being encouraged in the boys' as well as in the girls' elementary schools. During the year sports requisites to the value of Rs. 90 were purchased and supplied to the schools.

226. Clay-modelling, rope-making, basket-making, rattan work and similar manual occupations are taught in most of the schools. Regular instruction in wood work is given in three of the primary schools, in rattan work in the Napoklu Model school and in tailoring in the Municipal tailoring school at Virajendrapet. A further supply of tools and appliances was made to the three former institutions but in order to equip these schools properly for providing manual training to all the pupils, a much larger expenditure with more commodious workshops is necessary. Instruction in Sloyd work was imparted in the Government Training School at Mercara. The weaving school at Sanivarsante continued to work during the year with five students on the rolls, three of them being in receipt of stipends of the value of Rs. 5 each and two of the value of Rs. 2 each. The value of the stipends has since been raised to Rs. 5 each, in order to attract students from the whole of Coorg. The stipends tenable in the tailoring school at Virajendrapet have also been increased both in number and value. There are now 6 stipends of the value of Rs. 5 each and 6 stipends of the value of Rs. 3 each, two of the higher value and two of the lower value being made available for non-Muhammadans also.

227. The system of village school committee or panchayats was in force during the year and worked satisfactorily.

228. The attendance in the elementary schools is steadily rising and extensions to buildings and additions to the staff are becoming more and more necessary. In order to ensure promotion to local fund teachers, a revision of the scale of salaries is a pressing want. At present many a raw recruit as well as a teacher of some years' standing both draw the same Rs. 10.

229. The only training school in the province is the Government Training School at Mercara, which provides the provincial supply of trained elementary school masters. Thirteen trained students were relieved from the institution on the 31st March 1915 and were provided with appointments. It is not known how many of these passed the Preliminary Test for Teachers' Certificate held in March 1915 as the results have not been published. Training schools.

230. The scale of salaries of the teaching staff was revised during the year. M.R.Ry. N. Dasappa continued to be in charge of the institution throughout the year.

231. There are no technical schools in Coorg. The weaving school at Sanivarsante and the carpentry and the tailoring schools at Mercara and Virajendrapet are dealt with in paragraphs 226 and 235. Technical education.

232. There are altogether one secondary and seven primary schools (six Government and two aided) exclusively appropriated to girls. The total number of girls in all classes of schools rose from 2,356 to 2,426 during the year. Of these, 109 were studying in secondary schools and four were training in the Government Training School, Mercara. The Lower Secondary girls' school at Mercara worked successfully during the year, there being 101 pupils on the rolls, of whom 44 were boarders in the school hostel. A Government girls' school of the elementary grade was opened at Hudikeri during the year. Female education.

233. There are no separate schools for Europeans and Eurasians in the province. European education.

234. There were two schools intended solely for Muhammadans and maintained by the municipalities at Mercara and Virajendrapet. The attendance of Muhammadans in elementary schools rose from 291 to 318 and in secondary schools from 7 to 9. Nonrecurring grants of Rs. 3,000 were sanctioned during the year to each of the municipalities of Mercara and Virajendrapet for improving the accommodation in both the Hindustani schools. Muhammadan education.

235. The improvement of Muhammadan education in Coorg is steadily kept in view and the following are among the measures recently sanctioned for the purpose:—

(1) the entertainment of a Urdu teacher in the Virajendrapet English School;

(2) Urdu assistants in the elementary schools at Fraserpet, Ammatti, Ponnampet and Hudikeri;

(3) one additional assistant in each of the Hindustani schools at Mercara and Virajendrapet;

(4) six scholarships of the value of seven rupees each tenable, by Muhammadan pupils in secondary schools;

(5) 25 scholarships, eight of the value of Rs. 3 each and seventeen of the value of Rs. 2 each, tenable by Muhammadan pupils in elementary schools.

The above scholarships are in addition to the 24 industrial stipends tenable in the carpentry and tailoring schools at Mercara and Virajendrapet.

236. The work of the carpentry and the tailoring schools has been dealt with in paragraph 226 *supra*.

Special classes.

237. There were nine schools for Panchamas during the year, the Basel Mission having closed the school at Balelé in Kiggatnad taluk. In three of the above schools caste boys are admitted. Out of 327 Panchama children, 290 attended the schools for the special classes and 37 attended the caste schools. With a view to encourage the Panchamas to send their children to school, books and slates are given free of cost, and prizes in the shape of cloth are being annually given to the children who have regularly attended school during the year.

Private institutions.

238. The number of private institutions and the attendance in them rose from 16 to 19 and 355 to 364 respectively. These institutions call for no special remarks as they are unaided, ill-housed and poorly equipped.

Educational conferences.

239. Eight meetings of the 'Teachers' Association were held during the year. These meetings were well attended. Most of the teachers gave lectures and model lessons and took part in the discussions held on educational subjects. Several of them also made use of the lending library opened in connection with the association.

240. M.R.Ry. A. Rama Rau Avargal, B.A., Assistant Inspector of Schools, was in charge of the elementary schools throughout the year.

Preparation and distribution of text-books.

241. There is a Government Depot at Mercara with five branch depôts, the operations of which are confined to the supply and distribution of text-books to elementary schools. These depôts, however, did not transact any business during the year.

242. There is no Text-book Committee for Coorg.

The Press.

243. Statements Nos. 165 to 170.—*Receipts, expenditure, etc.*—The only printing press in the province is the Coorg District Press at Mercara. Including a sum of Rs. 298 adjusted by book transfer on account of depreciation of plant and type the charges amounted to Rs. 4,209 as compared with Rs. 3,832 in the previous year. The value of the work done for the various offices and the cash receipts were respectively Rs. 3,341 and Rs. 750 as compared with Rs. 3,661 and Rs. 665 in the preceding year. The value of plant at the close of the year was Rs. 9,869.

244. The outturn of composing work done was equal to 2,415 pages of pica solid foolscap folio and the number of impressions printed was 510,100. The cost of composing a page of pica solid foolscap folio was Rs. 0-14-9, while the cost of printing 100 impressions was Rs. 0-3-6, as compared with Rs. 0-14-6 and Rs. 0-3-9 respectively last year.

245. The management of the press which, as usual, devolved on the Foreman, was satisfactory.

246. There are no literary societies properly so called in Coorg, but in Statement No. 171 will be found particulars of three institutions which incidentally foster the study of literature through the medium of libraries and reading rooms. Literary societies.

VIII.—ARCHAEOLOGY. (1914-1915.)

247. No action was taken under this head during the year. The question of declaring ancient monuments which are the property of Government to be protected monuments under section 3 of the Ancient Monuments Preservation Act (VII of 1904), has in consultation with the Superintendent, Archaeological Survey Department, Southern Circle, Madras, been kept in abeyance until he can visit Coorg and inspect them. The monuments selected for conservation are in good order. Archæology.

IX.—MISCELLANEOUS. (1914-1915.)

248. The standing information which concerns this chapter is printed at page 39 of the administration report for the year 1911-1912 under the head "Ecclesiastical jurisdiction". Ecclesiastical jurisdiction.

249. Statement No. 172—*Religious institutions*.—There were no changes during the year. Ecclesiastical.

250. The contributions paid by Government to the indigenous religious institutions in the province aggregated Rs. 19,381 and consisted of cash payments (Rs. 7,049), deductions from the land revenue demand (Rs. 972) and assignments of land revenue (Rs. 11,360). Of the gross amount (Rs. 19,381), Rs. 12,557 forms the endowment of minor temples under the management of village communities concerned, while the remaining Rs. 6,824 relates to the grants made to the temples under the management of the Committee constituted under the Coorg Temple Funds Management Regulation, 1892. This body which consists of 15 members held twelve general meetings during the year and the average attendance was 7.58. With an opening cash balance of Rs. 2,134, the income, including the sum of Rs. 6,737 paid by Government towards the upkeep of the *chattrams*, was Rs. 19,318. The expenditure amounted to Rs. 17,696 and the closing balance was Rs. 1,622. In addition to the Government grant (Rs. 13,561), the other sources of income were voluntary offerings by pilgrims (Rs. 1,466) and contributions of grain by the people Rs. (1,055). The chief items of expenditure were the purchase of food-grains to the value of Rs. 10,443 and the performance of the customary religious services and ceremonies.

251. Statement No. 173—*Charitable institutions*.—The *chattrams* are situated at Mercara (2), Bhagamandala and Irpu. They enjoy an annual endowment of Rs. 6,737 from Government and are under the control of the Temple Funds Management Committee. There are three similar institutions maintained by private charity during certain festivals and they are located at Talakaveri, Virajendrapet and Somwarpet. Charitable institutions.

252. The supply of articles of stationery to Government offices in Coorg is arranged for in communication with the Superintendent of Stationery, Madras. Stationery.

Condition of
records.

253. The work of sorting and arranging the records continued during the year. The work is being done by the record-keepers of the several branches of the Commissioner's Office assisted by such clerks as can be spared from the ordinary establishment. About half of the records of the Office of the First Assistant Commissioner and District Magistrate were sorted and arranged during the year.

Co-operative
credit societies.

254. The number (22) of societies remained stationary, but that of the members rose from 2,449 to 2,493. The total receipts, including the opening balance of Rs. 14,520 and a Government loan of Rs. 250, amounted to Rs. 70,343 and the disbursements to Rs. 56,883 leaving a closing balance of Rs. 13,460. The collections of outstanding debts were satisfactory.

Cattle
insurance.

255. Three new societies were registered during the year bringing the total to ten. The number of policy holders rose from 263 to 339 and that of the cattle insured from 373 to 498. The amount of fees collected was Rs. 1,852 as compared with Rs. 1,558 in the previous year. Fifty-two policies were redeemed at a cost of Rs. 490. All the societies promise to do well.

Grain bank.

256. A grain bank, established at Kokeri village in Kadietnad with 92 members, was registered in the early part of the year. It is in a sound working condition and there was at its credit 683 battis of paddy valued at Rs. 2,390 at the close of the year.

Treasure trove.

257. There were no cases of treasure trove during the year under report.

Fish
preservation.

258. The preservation of fish continued to be the care of the Coorg Fishing Association but its operations were seriously hampered by want of funds. A proposal to reconstruct the Association and with assistance from Government to provide it with sufficient funds is under consideration. February 15th to June 30th was fixed as the close season for netting. Five prosecutions were instituted during the year for offences under the Fisheries Act. All of them resulted in convictions. Mr. H. C. Wilson, Piscicultural Expert, Madras, visited Coorg in March 1915 for studying the subject on the spot and his report is awaited.

PART III.

STATISTICAL APPENDICES.

I.—PHYSICAL AND POLITICAL GEOGRAPHY.

I.—PHYSICAL AND POLITICAL GEOGRAPHY.

Total area of the province of Coorg for the year 1914-1915.

Presidency or Province.	Coorg.	
Total area.	Acres.	
1. Area according to professional survey ...	1,012,260	<i>Note</i> —This statement corresponds with Form A—1 of the Tables of Agricultural statistics.
2. Deduct { (a) Feudatory States ... (b) Area for which no returns exist	
3. Net area by professional survey ...	1,012,260	
4. Corresponding area by village papers ...	1,012,260	

(2). Character of Surface.

1. Forests	357,740	<i>Note 1.</i> —This statement is Form A—2 of the Agricultural Tables. A detailed description of the character of the surface will be found in paragraphs 1 to 11 of the administration report for the year 1911-1912 <i>vide</i> pp. 1—3.
2. Not available for cultivation ...	334,225	
3. Culturable waste other than fallow ...	10,490	
4. Current fallows	171,114	
5. Net area cropped during the year ...	138,601	<i>Note 2.</i> —The area shown as not available for cultivation consists of (a) unculturable Government waste and (b) unculturable <i>banes</i> , estimated respectively at 120,868 and 213,357 acres.
Total ..	1,012,260	
6. Irrigated during { (a) Government canals ... (b) Private canals ... (c) Tanks ... (d) Wells ... (e) Other sources ..	2,243 1,555	<i>Note 3.</i> —Item 3 is the estimated area of culturable Government waste. <i>Note 4.</i> —Item 4 is composed of (a) the estimated area of culturable <i>banes</i> (13,289 acres) and (b) the difference between the net area cropped and the gross holdings other than <i>banes</i> . It thus includes unculturable extents under actual holding, the area of which there is no means of ascertaining.
Total area irrigated ..	3,798	
7. Crops irrigated. { (a) Rice ... (b) Other cereals and pulses ... (c) Miscellaneous food-crops ... (d) Miscellaneous non-food crops ..	3,798	
Total ..	3,798

	25. Cinchona	
	26. Indian hemp	
	27. Others	237	
Total		42,843	
28. Fodder crops	
29. Fruits and vegetables, including root crops		5,761	
30. Miscellaneous crops.	(a) Food	
	(b) Non-food	
Total		5,761	
31. Grand Total		139,689	
32 (31 — 32). Area cropped more than once		998†	‡ Double crop rice 598 acres.
33. Net area cropped during the year		138,691	Second dry crops 402 "

(82). Rates of rent and produce of the principal crops during the year 1914-1915.

Principal crops.		Average rent per acre.		Estimated outturn per acre.		Estimated normal yield per acre in lbs.	Estimated total produce in lbs.
		Maximum	Minimum.	Current year	Previous year.		
1		2	3	4	5	6	7
Rice	RS. A. P. 5 0 0	RS. A. P. 0 6 0	1,440	1,200	1,600	117,639,600
Ragi	2 0 0	0 4 0	750	550	1,000	2,580,000
Coffee	2 4 0	0 4 0	112	196	224	4,704,000

(83). Prices at harvest time of the principal crops during the year 1914-1915.

Principal crops.		Harvest prices per maund of 28 lbs		
		Current year	Previous year.	Normal.
1		2	3	4
Rice	RS. A. P. 1 7 0	RS. A. P. 1 8 0	RS. A. P. 0 14 0
Ragi	1 0 0	1 1 0	0 13 0
Coffee	9 0 0	10 0 0	10 0 0

(84). Price of labour for the year 1914-1915.

District.	Wages per diem.		Cart per day	Camel per day	Donkeys per day.	Boat per day.
	Skilled.	Unskilled.				
1	2	3	4	5	6	7
Coorg Re	1 0 0	0 7 0	1 8 0

(85). Statement of live-stock, ploughs and carts for the year 1914-1915.

	No.	<i>Note.</i> —This is Form A-4 of the tables of agricultural statistics prepared quinquennially. The figures were compiled for the year 1914-1915.
1. Bulls and bullocks	45,556	
2. Cows	35,644	
3. Male buffaloes	12,727	
4. Cow buffaloes	6,950	
5. Young stock (calves and buffalo calves)	33,147	
6. Sheep	110	
7. Goats	3,929	
8. Horses and ponies	189	
9. { Mules	6	
Donkeys	96	
10. Camels	
11. Ploughs	34,309	
12. Carts	979	

(86). Statement showing the cost of the Civil Veterinary Department during the year 1914-1915.

Major heads	Amount.				Remarks.
	Imperial.	Provincial.	Local.	Total.	
	RS.	RS.	RS.	RS.
